**THE DALEVIEW COLLEGE OF PHARMACY AND RESEARCH  
CENTRE, TRIVANDRUM**

**STUDENT SUPPORT GUIDANCE PROGRAMME**

**LIFE SKILL TRAINING SESSION**

**DATE-** 2<sup>nd</sup> MARCH 2022

**VENUE-** Dr. Kalaam Smrithi international - Auditorium, Dale View Campus, Punalal.

**SPEAKER-** Mr. Vishnu K B, Life skill trainer & Counsellor, The Dale View

**REPORT**

Life skill training session was conducted on behalf of STUDENTS SUPPORT GUIDANCE PROGRAMME CELL of The Dale View College of Pharmacy and Research Centre. The event started with a prayer song by the college choir. One minute silence was observed by the audience in the memory of our founders of The Dale View Sri. C. Christudas sir and his beloved wife Smt. Santha Das madam, followed by the welcome address by Dr. Shayju David Alfi (CEO, Dr. Kalaam Smrithi International). Dr. P. Manojkumar (Principal, DVCP) addressed the gathering. The event was coordinated by Mrs. Senthila S (Nodal officer, SSGP). 59 Students of first semester B.Pharm and 24 Students of first Pharm D students attended the session.

Interesting interactive session which included many activities and games for students to enjoy, to rethink and to enrich their Life skills. It helped them to understand the importance of teamwork and mainly the importance of communication and listening skills.

The session also gave awareness about sexual harassments faced by men and women in our society and the importance of raising our voice for our needs. The session included Physical activities to warm up the students into the training mode, random team formation and coordination among them by small concepts like ten second skits, observational skills by change leader change programme, listening communication via creating spot stories. The whole session was very informative and motivational.

The session successfully tried to create a group of psychosocial competencies and interpersonal skills that help students make decisions, solve problems, think critically and creatively, communicate effectively, build healthy relationships, empathize with others, and cope with and manage their lives in a healthy and productive manner.

### Feedbacks from Students

It was a relief and it was blissful the way that trainer was exercised the masks out of us, big smiles throughout the day, laughed hard, thought and rethought about events and hard times and it felt like a joke. The awareness about the sexual harassments men and women facing in the society was the best part and I personally think today's programme is just a beginning to bring lights to the places where shadows are to be found. It was pure bliss the joy on everyone's faces and those big smiles the positivity that we brought within us was lush and green, it was like the bright blue also found stars within the pressure which can be moulded into diamonds. Personally I'm happy the energy was positive even at this very breeze shining moment. I would like take initiative to do stuffs like this in the future and bring others with me, a growth that helps everyone around me.

**Mr. Sufiyan P**  
**First year Pharm D Student**

Great session on the topic 'life enrichment'. More than being a normal session, this session included many activities and games for us to engage actively. Helped us understand the importance of group formation, teamwork and mainly importance of listening in communication. Overall, a really good session and fully enjoyable. It was a great start of the academic year. We had a relief from the stressful life of studies. These sections could enhance our communication and interaction even with students of other batches. We could develop a skill of communication. I think these sections are very informative and entertaining and should be included frequently during regular classes too.

**Ms. A.Abhirami, & Ms. Bency Bobby**  
**First year Pharm D Students**

The class conducted by SSGP on 02/03/2022 was really nice, enjoyable and useful for students. We practiced certain mind relaxing activities which help us to remove our stress. we all really look forward for such useful classes.

**Ms. Sivani M**  
**First year B.Pharm student**

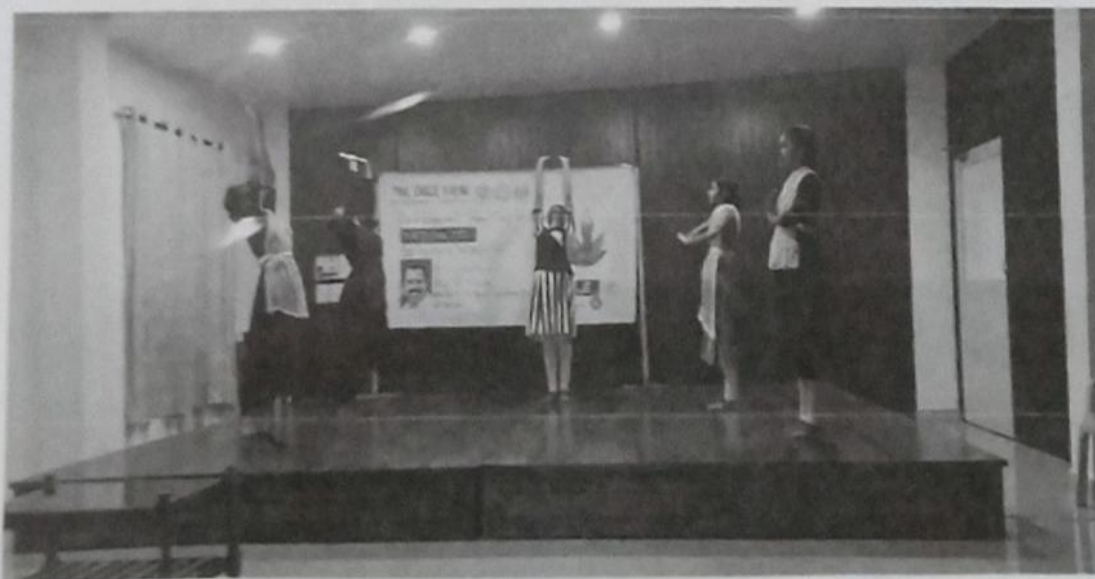

It was a very nice class. We enjoyed very well. This type of classes will help us to remove our stage fear. We expect more live classes like this for mind relaxation and reduce our stress.

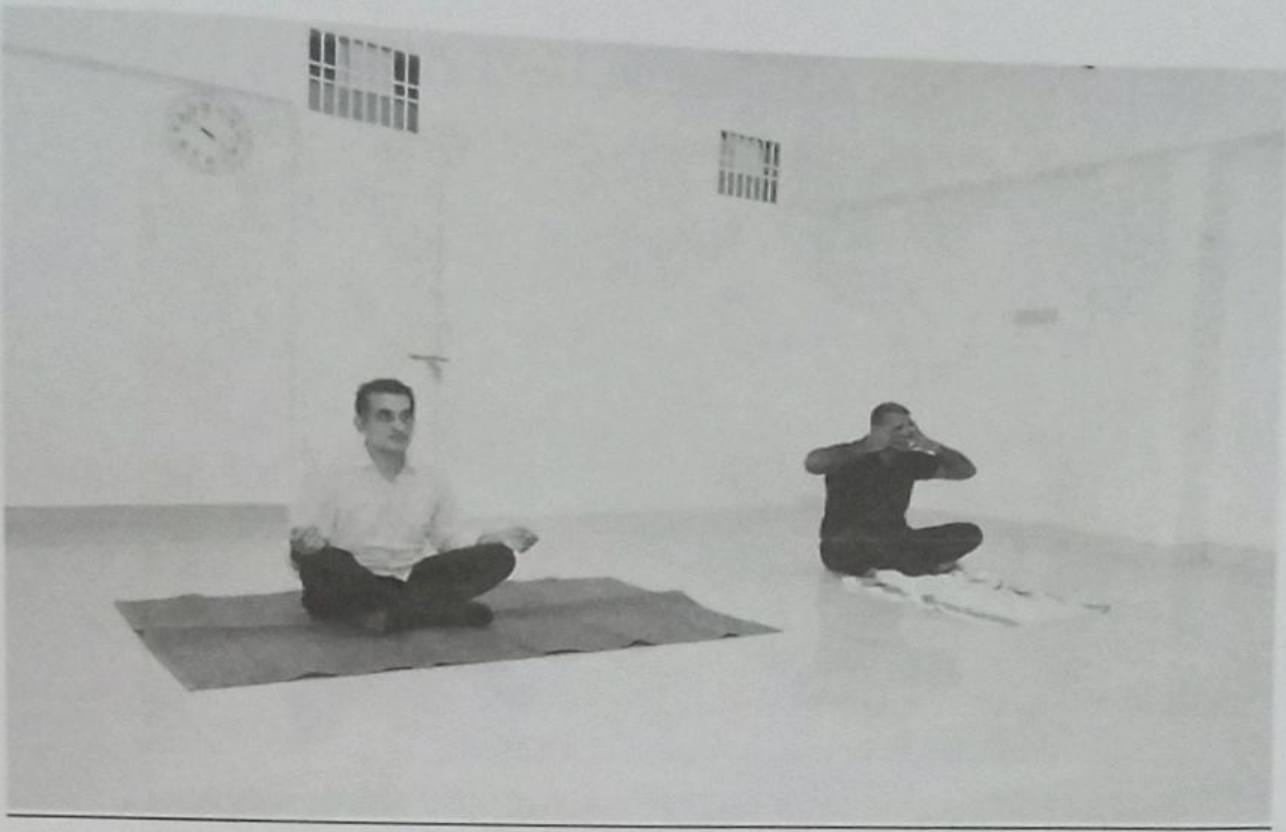

**Ms.Yamini**  
**First year B.Pharm student**

# International Yoga Day Celebration 2022

REC

# Objectives

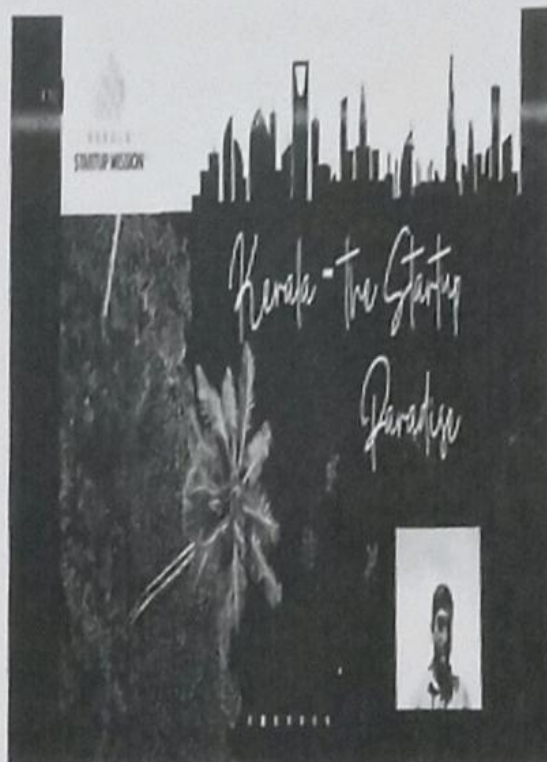

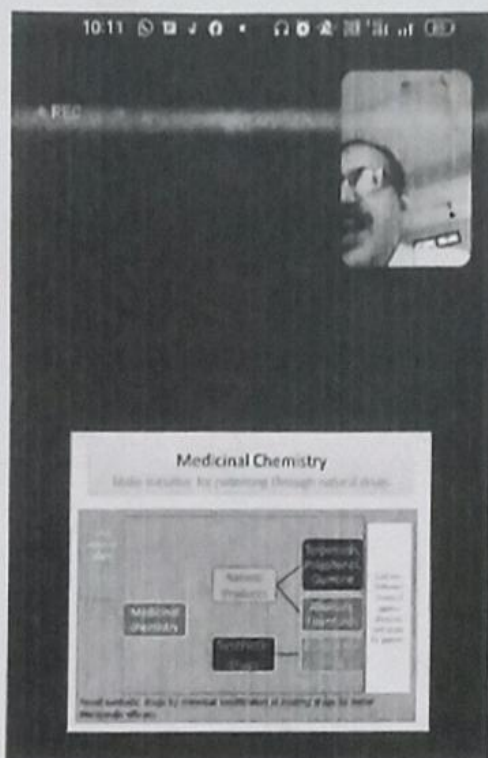

- To create entrepreneurial culture in academia foster growth of innovation and entrepreneurship amongst faculty & students
- To promote knowledge based and technology driven startups by harnessing young minds and their innovation potential in an academic environment.
- Development of a Technology Personality through Innovation, Technology Skills and Entrepreneurship

# Webinar – Intellectual Property Rights & Innovation and Start-up Mission

Webinar - Impact lecture Series 2022-23 Intellectual Property Rights and Innovation and Start-up Mission on 24<sup>th</sup> June 2022 , Resource Person Prof. Dr. R Varatharajan, Dean School of Life Sciences, Manipur Central University Imphal and Mr. Bergin R Russel, Assistant Manager, Kerala Start-up Mission

## KERALA UNIVERSITY OF HEALTH SCIENCES

### Maintenance of Physical and Mental Fitness of Health Science Students

#### Introduction

Incidence of Life Style Disorders is steeply increasing among young adults of Kerala. Health Science students are also a part of them. Life style transition and nutrition transition are the main reasons. The global strategy of WHO is "to improve public health through healthy eating and physical activity". The same applies to Kerala scenario also. The Govt. of Kerala has also launched a project namely "Kerala Kayikakshamatha Mission". The mission envisages improving physical activity levels of students and the general public of Kerala.

Under the context the Kerala University of Health Sciences has decided to address the issue by conducting series of awareness campaign and physical activities among the students. Aim of this project is to throw in physically fit and mentally sound health professionals to the society.

**Objectives:** 1) To maintain Physical and Mental Fitness of Health Science students

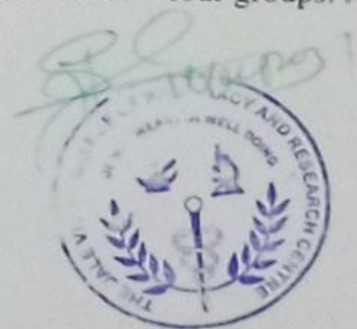

2) To prevent occurrence of Life Style disorders among Health Science students

#### Methodology

The programme consists of theory and practical sessions.

Theory class of 2 – 3 hours (onetime) will be conducted to spread the importance of physical activities in preventing life style disorders. Baseline data will be collected after the class.

Practical sessions will be carried out at the play ground. All first year students will be assembled in the play ground after their regular classes. They will be divided into three – four groups. All

students will be doing the warming up exercises followed by any of the items included in the SOP. The programme will be conducted minimum two days in a week from 4-5pm.

#### **Standard Operative Procedure (SOP)**

1. Warming up and conditioning – stretching, rotation and breathing exercise
2. Aerobics /Minor games / Major games/Yogasana
3. Mass Walking/Jogging in campus
4. Warm down exercises

#### **Assessment Criteria**
