TALK ON: CHILD MARRIAGE - HEALTH AND PHYSICAL CHALLENGES

Punalal: The NSS unit of The Dale View College of Pharmacy and Research Centre in association with women and child development department, Govt. of Kerala has organized a session on 'Child Marriage: Health and physical challenges' on 08-02-2023. Child marriage is a key driver of adolescent pregnancy – which carries serious health risks – and can increase the risk of contracting sexually transmitted infections and experiencing gender-based violence (GBV). Child marriage, defined as marriage before 18 years of age, is a violation of human rights and a marker of gender inequality. Growing attention to this issue on the global development agenda also reflects concerns that it may

IQAC - Corporate Mentorship Program
Corporate Talk- 2

"Avenues for Pharma Graduates in Product Management " Session handled by Mr. Sanjay Anand Zonal Sales Manager , Consorn Pharma Limited on 17th February 2023. Medicine Information Pharmacists can be a promising career option in the coming years. According to experts, medicine information (MI) or drug information (DI) is a job role based on providing unbiased, critically evaluated, and evidence-based information about medicines. MI Pharmacists have a wide spectrum of activities, including the proactive provision of information, provision of drug and therapeutic queries, adverse drug reaction reporting, and support for therapeutic training and education. It is a resource-intensive sector demanding evaluated independent information to improve patient care. The generated data helps physicians and pharma companies make appropriate decisions in drug development and health care delivery.

There's no denying that a well-rounded pharmacy education can propel a slew of career opportunities for the qualified candidates. This is why getting industry-centric pharmacy education from a reputed institution is important. It provides the ambitious minds with the required industry exposure to comprehend the nuances of the industry-work conditions.
