INAUGURATION OF PRESIDENT SHRI RAM NATH KOVIND SCIENCE & RESEARCH LIBRARY

A stamp in the name of Ram Nath Kovind was also illuminated at the function. Minister M.B. Rajesh presided. G. Stephen MLA, Ramnath Kovind's wife Savita Kovind, daughter Swati Kovind, chairman Dr. C S DeenaDas, Director C S Dipin Das, Additional Director C S Dinildas and Dale View Community Coordinator Shyam were present.

Ram Nath Kovind International Science and Research Library have more than 30,000 books and double amount research papers.

Thiruvananthapuram : Former President Ram Nath Kovind said that the rural library system in Kerala is the motherland of the entire country. He was delivering the keynote speech at the inauguration of a library and research institute started in his name at Punalal Dale College of Pharmacy on 22nd November 2022. Other states can also start similar to this. Dale View has brought about cognitive change in a small village and is a model for others. The aim of good education is to develop a good human being. Whether in personal life or in the social arena, a person becomes a good person when he excels. Education should be able to make such a difference. Today we live in the world of knowledge economy. An example of this is our achievements in space. This is helped by the cognitive achievement. There should be positive changes in the field of education so that such achievements can continue to be achieved - Ram Nath Kovind said. Governor Arif Muhammad Khan inaugurated the event. He said that development can be realized only through the empowerment of the rural sector.

LAHARI VIRUDHA KERALALAM CAMPAIGN

On November 1st, in association with aryanad punchayath, the students of The Dale View College of Pharmacy and Research Centre participated in a human chain which extend from aryanad to Parandodu and pledged against the misuse of drugs as a part of LAHARI VIRUDHA KERALALAM CAMPAIGN. The human chain was inaugurated by Mr. G Stephen MLA.

SPORTS DAY

The Dale View College of Pharmacy and Research Centre organized its annual sports meet on 4th and 5th November at college and mithranikethan sports academy.

ARUVIKKARA WATER PURIFICATION UNIT FIELD VISIT

As a part of curriculum, first year D Pharm students of The Dale View College of Pharmacy and Research Centre were taken to a field visit to Aruvikkara Water Treatment Plant in 08/11/2022. Students gone for this field visit as a part of their social pharmacy subject.

The purpose of the field visit is to understand and studying the water purification techniques used in different water treatment plants in Aruvikkara Dam.

Initially they visited 75 MLD water treatment plant. The guide explained about all the purification techniques performed there. There are quality assurance unit, chemical house and Scada. In the chemical house, he explained about how the raw water is extracted using alum (aluminium silicate). The alum stone is converted into solution and reverse pumping is done, and then mixed well. The same procedure is done for lime powder. The lime powder solution is added to maintain the pH level. PH and turbidity will be checked periodically in every hour. After preparing the solution, solution is diluted and pumped to the line for filtration. There are 6 stages of filtration. They are Aeration, Coagulation, Flocculation, Clarification, Filtration and Chlorination. Aeration is the first stage of filtration and Chlorination is the last one. They explained all the processes of water purification and at last we visited Scada Room – The overall process of the plant is controlled there. The aim for Scada is to minimise the man power and control with a computer system and any employee can have access on it.

Next they visited chemical house. The chemist explained about the tests carrying out there as a part of filtration and also explained about the water kit testing. Next they visited the clear water pump house followed by chlorination unit. Next they visited

Kerala water authority, FCCA assisted water supply project of 86 MLD water treatment plant. It is an old version or older technique of water purification.

WORLD IMMUNIZATION DAY

Immunization is a global health and development success story, saving millions of lives every year. Vaccines reduce risks of getting a disease by working with your body's natural defences to build protection. When you get a vaccine, your immune system responds. We now have vaccines to prevent more than 20 life-threatening diseases, helping people of all and control of infectious disease outbreaks. They underpin global health security and will be a vital tool in the battle against antimicrobial resistance. ages live longer, healthier lives. Immunization currently prevents 3.5-5 million deaths every year from diseases like diphtheria, tetanus, pertussis, influenza and measles. Immunization is a key component of primary health care and an indisputable human right. It's also one of the best health investments money can buy. Vaccines are also critical to the prevention.

On behalf of World Immunization Day, The Dale View College of Pharmacy and Research Center observed World Immunization Day on 10th November 2022. It was organized by 5th year Pharm D students under the guidance of Dr. Rincy R L, Lecturer, Department of Pharmacy Practice. For this, the 5th year Pham D students presented posters. The poster includes valuable information about importance of taking immunization and its advantages and disadvantages. The students also conducted awareness class based on Immunization and importance of vaccines to the Parents of nursery students at Government Cottonhill Nursery School Vazhuthakad and Green Valley Kinder garden Idappazhinji, Thiruvananthapuram. The class was taken by 5th year Pham D students, charts were also displayed by the students. The program was very beneficial to both public and students.

SEMINAR ON “EFFECTIVELY EMPLOYING OUR NATURE FOR THE BENEFIT OF HUMANKIND

On 16th November, 2022, seminar on “Effectively employing our nature for the benefit of humankind” was organised by The Dale View College of pharmacy and research Centre. Dr. Shiji kumar P S, Principal has given the welcome speech and also welcomed Dr.L Baskar (professor and HOD Of Pharmaceutical chemistry deparment at Grace college of pharmacy,kodunthirapully,palakkad) by offering the momento and Ponnada. Dr. L Baskar Sir has conducted an encouraging seminar for the students and added about the scope in future and the importance of nature on human kind. The session was very interesting . There are other qualities which come from education or knowledge, but it is essential, if one wishes to be a genuine human being and impart satisfying meaning to one's existence, to have a good heart. Honesty integrity love and happiness are some of the end values or destination values that human beings seek to attain, practise and live with. On the other hand, values such as health, money, fame, status, intelligence, and so on are the means values or path values which help achieve the end values. During the session students learnt how natures influence the humankind and their benefits. The Session was enriching for the students and we all had a great time .The seminar ended with a vote of thanks by Ms Krishna.

WORLD DIABETES DAY

World Diabetes day is an important healthcare event marked on 14 November every year to highlight the shooting prevalence of diabetes and its impact and educate people about the preventive tips of diabetes.

This year 2022, World Diabetes Day theme is "Education to protect tomorrow" under the combined theme of the World Diabetes Day 2021-23 campaign "ACCESS TO DIABETES CARE ".

As part of World Diabetes Day, The Dale View College of Pharmacy & Research Centre in association with S.K Hospital, Trivandrum, the 6th year PharmD students organized an awareness skit based on Diabetes Mellitus at Lulu Mall, Trivandrum. The skit showed the various signs and symptoms of diabetes, diagnostic methods, treatment options including pharmacological and non-pharmacological, diabetic complications and most importantly the hypoglycemic events and its treatment protocol. It was scripted for making awareness among the general public regarding Diabetes Mellitus.
